

Tulsa's bank clearings were almost four and one-half million dollars during the week which closed yesterday. The splendid showing was caused by general prosperity and not one or two big business deals.

HUGHES SHOWS THOUSANDS IN SHOW ME STATE

Takes His Campaign in Missouri and Addresses Big Audiences.

ADAMSON LAW UP TO RIDICULE

Declares That "War Prosperity" Is Built on Foundations of Sand.

JOPLIN, Mo., Oct. 13.—Charles E. Hughes today took his campaign to Missouri, the fourth of the states that skirt the so-called "solid south" to be visited on this present trip. Save for one stop at Springfield, Mo., the entire day was spent traveling. The nominee pleaded guilty to tonight nearly three hours behind schedule time and addressed an audience in a big tent, making his chief theme the protective tariff.

Mr. Hughes told the crowd that the present prosperity of the country was built on sand, that "the intoxicated fancy may indulge in happy dreams, but the sober thought of the country is directed to the day when this stimulus—the European war—will be no longer available."

He referred to "those who are seeking to make political capital out of our present war prosperity," portrayed in detail conditions as he viewed them in the United States when the war shall end and assailed the Democratic tariff policy as a policy which "means idle plants and impoverished workmen."

He referred to "those who are seeking to make political capital out of our present war prosperity," portrayed in detail conditions as he viewed them in the United States when the war shall end and assailed the Democratic tariff policy as a policy which "means idle plants and impoverished workmen."

At Springfield and again here tonight Mr. Hughes assailed the administration for the enactment of the Adamson law.

"What are real laws?" he asked. "Real laws are passed after inquiry with some understanding of the justice of the case, with some idea of what is involved and ought to be done. Sham laws—sham laws—must be passed under duress. I am opposed in the interest of labor to government by holdup and I am for government by reason and fairness."

Mr. Hughes' train was about three hours late in reaching Springfield. The audience which he addressed in Convention hall had been waiting two hours and a half and hundreds unable to find standing room were turned away.

"No thoughtful American can view our present economic condition without serious apprehension," Mr. Hughes told his audience here. "We are under the unhealthy stimulus of the European war. Hopes are raised which cannot be fulfilled."

"What will be our condition when the war is over? In the first place a large amount of labor employed at high wages will be unemployed. The demand which it is now supplying will cease. The mere stoppage of the manufacture of munitions will mean in itself a serious change in the opportunities of labor. When the military demand ceases, the military demand ceases."

THIS TIME IT'S SET FOR NOV. 10

New Date Given for Trial of Townsend When Lawyers Agree On Continuance.

The preliminary hearing of H. H. Townsend, now assistant chief of police, upon the charge of assaulting "Dutch" Weete four weeks ago was again postponed when called in the court of Justice Daniel yesterday. By an agreement of attorneys for both sides it was decided to put off the trial until November 10. This is the third time the case has been postponed.

The assault is alleged to have taken place when Townsend joined a raiding squad in search for places where liquor was being sold. He was not assistant police chief at that time, but held a position as departmental secretary of the Y. M. C. A. and had a special officer's commission to accompany the raiding squad.

Weete was knocked to the ground by Townsend during a scuffle in front of a place on North Main street while the raiders were at work inside. He charges that Townsend used a pair of knuckles in the assault. Weete was in a local hospital for several weeks after the affair.

OFFICER STUCK FOR AN ASSAULT

Daniel Pines Forest Bowlin for Striking Printer and Then Holds Up Payment.

Forest Bowlin, a member of the local police department, was found guilty and fined \$10 for assault by Justice Lee Daniel yesterday. Bowlin was tried Thursday for assaulting R. W. Scott, a union printer, while he was a prisoner in the city jail two weeks ago. Justice Daniel took the case under advisement until yesterday.

During the trial it was brought out that Bowlin struck Scott several blows while he was lying flat on his back in the courtroom at the police station. Scott had been arrested for drunkenness.

Payment of the fine was suspended by Justice Daniel. He held that while the attack was not warranted the evidence showed that Scott had been abusive and might have provoked the officer to anger. For these extenuating circumstances the suspension of the fine was ordered.

SEARCH FOR BRUTE WHO ATTACKED GIRL

SEARCHERS REPORT NEGRO'S TRAIL HAS NOW BEEN DISCOVERED.

Little Thelma Price Is So Badly Injured That She May Be Maimed for Life.

Special to The World.
OKLAHOMA CITY, Oct. 13.—The country for miles around Oklahoma City tonight is being searched for an unidentified negro who this morning attacked little Thelma Price, 13-year-old white girl, in the Capitol Hill district, maiming her in such a manner that she probably always will be crippled. Last reports from the searchers was that they had picked up a clue which they were certain would lead to the black's capture before morning. Summary punishment is almost sure to be meted out to the negro.

The girl was on her way to school when the negro pulled her into a thicket, stripped her body of clothing and submitted her to horrible treatment. She was discovered some time later by neighbors who were attracted by her cries.

TROLLEY STRIKE BREWING IN CITY

Agitators, It Is Said, Are Here From Muskogee to Form a Union.

MAY START FIGHT

Many Motormen Declare They Are Satisfied With Wages and Treatment.

A STRIKE will paralyze the workings of the street railways of Tulsa within ten days if the object of two representatives of the American Amalgamated Union of Motormen and Conductors, who arrived here yesterday afternoon, is accomplished, according to persons on the "inside."

The agitators come late from the Muskogee grounds and are at present attempting to form a union among the 40 or 50 motormen operating in the city, it is said. If a union is formed and is not recognized by the street car officials a strike will ensue, it is declared.

Heads of the railway systems are known to be strongly against the forming of a union and are certain to object to any further demands which the men might make.

As yet few of the men working on the cars have been approached by the union men and are divided in their opinion as to whether they would consent to become members.

The majority of motormen spoken to by The World last night were against joining a union and say that the results attained in Muskogee and New York would not warrant any trifling. They say too that they are at present well satisfied with their wages they are receiving and are confident that if they struck their places would be filled.

The regular wages at present paid by the companies is said to be 22 cents per hour for motormen and 24 cents after six months' work has been done. It later goes as high as 25 cents. The hours range from 9 to 12 according to the length of the run, which is optional, most men desiring the longer runs.

One of the motormen on a regular city run explained to a representative of The World that if one of the agitators climbed on to his car and asked him to join up he would "kick him off the car."

M. McGrath, superintendent of the Tulsa Street railway, when questioned concerning the raiding of Tulsa by the agitators, said he little feared the results of their efforts.

"The men who are in Tulsa now lighting their firecrackers are the same who stirred up the row in Muskogee," McGrath says, "and they are doing it to keep their jobs."

"I. D. Long, president of the Muskogee system, said to me that H. M. Fenton, one of the men agitating in Tulsa at present, had received instructions that unless he waked up and did something he would be discharged. The Muskogee eruption followed."

Fenton is president of the Oklahoma Federation of Labor and the instructions were mailed from the American Federation of Labor.

Are Working on Orders

"Fenton and his secretary were instructed to get after every street railway system in Oklahoma and get them signed up on the union."

"The Muskogee street car men listened to the agitators as a circus crowd listens to the side-show orator and they got stung."

"They were told that they would get 10 cents per hour more, that they would have to work only eight hours, that they would be given a new car. They received none of these and they locked themselves in for three years at less wages than Tulsa street car men are getting now."

"They have signed up for three years and give up their privilege of striking, they agree to ask for no increase in wage and they are fined for all their mistakes, such as transfers, punched wrong and handed in late."

"We have no room in Tulsa for agitators of this type."

Cotton Defeated.
NEW YORK, Oct. 13.—Harry Wills of New Orleans defeated George Cotton of Pittsburgh here tonight, after referee stopping the match in the fifth round to save Cotton from further punishment. Wills weighed 210 and Cotton 203 pounds.

STE NEW SUB WHIE PATROLS HUNT FOR BASES

Officers of Bovic, Bound for England, Unable to Give Nationality.

NOW SAFEGUARDING NEUTRALITY OF U. S.

Departure of Tug Gives Rise to Rumors of Merchant U-Boat.

BOSTON, Oct. 13.—An unidentified submarine off the New England coast was reported by the steamship Bovic today at a time when the steamship line to Europe was dotted with munition-laden ships just released from the embargo placed on their movement after the activities of a German submarine off Nantucket last Sunday.

The Bovic, bound from Manchester, England, for New York, did not report the Bovic's nationality, but gave its position when sighted at 6 a. m. today, at about two hundred miles east of New York, not far from the scene of the U-boat's activities of last Sunday. The Bovic is due in New York late tonight or sometime tomorrow.

The reports of the strange submarine were coincident with announcements that a fleet of British cruisers and destroyers was off the coast and that virtually the entire available destroyer flotilla of the Atlantic fleet of the United States navy was on neutrality duty.

Talk of Sub Base.

That the American destroyers were conducting an active investigation of stories of secret submarine bases on this coast was indicated in a dispatch from Bar Harbor, Maine, which said the destroyer Paulding made exhaustive search of the coast between Bar Harbor and Rockland today. There was no cave or rocky inlet that escaped the sharp scrutiny of the destroyers' officers. At dusk the Paulding put back to Rockland and it was understood that she had discovered nothing suspicious during the day.

The departure of a tug from New London, where there have been reports of preparations made for receiving a German submarine freighter, gave rise to some speculation as to whether the undersea boat sighted by the Bovic was a merchant submarine instead of another raider. The tug, however, put in at Vineyard Haven and it was said there that she was going out to the Dutch steamer Bloomsburg, which was torpedoed Sunday, to see what the chances were for salvage. The tug with a diver aboard was held in port tonight by a gale.

Searching Atlantic.

WASHINGTON, Oct. 13.—Destroyers from the Atlantic fleet are making a search of the Atlantic coast from Newport north to the Canadian line to investigate reports of hidden submarine bases or wireless stations. Admiral Mayo, commander of the fleet, reported to the navy department today that he had ordered the search, but did not disclose either the source of the reports on which he acted or the places where illegal radio plants or bases were said to have been discovered.

Secretary Daniels made it plain tonight that the admiral had acted on the basis of the reports of the scouting craft on the coast, although when the European war began general orders were issued to the fleet commanders to take all necessary steps to safeguard American neutrality. The fact that the department knows there is no present intention on Admiral Mayo's part to extend his search south of Newport. Navy officials believe he had no very definite information on which to act.

ORGANIZE ALUMNI CLUB AT Y. M. C. A.

Graduate Members of Physical Department Plan to Develop Directors for Nation.

An alumni club of graduate physical department members of the Y. M. C. A. will be formed, if the plans presented at the committee of the reorganized department of physical activities are carried out.

The leader of the proposed club is D. W. Franchot, a prominent oil man of Tulsa, and a graduate of Yale university.

The idea of the club would be to develop men who can lead young students wishing to become physical directors all over the country. A great opportunity is opened for men with training at present, the officials say, as there are over a hundred openings in one state.

It was also decided that a piano player would be provided at each of the gymnasium classes during the coming season. Fred Henry, the blind pianist, will probably be the player chosen.

The annual membership in the Athletic League of North America was renewed.

21 Cars Are Off.
CHICAGO, Oct. 13.—Twenty-one speedsters will start in the 250-mile great American automobile race at the speedway tomorrow, among the number being Aitken, Resta, DePalma and Rickenbacker. Resta is the favorite in view of the fact that he has won every race staged in Chicago this year. Owing to unfavorable weather today the elimination trials were waived, though DePalma circled the bowl at 105 miles an hour.

THREE ARE WOUNDED IN BAYONNE RIOT

AFTER DAY OF INTERMITTENT DISORDER RAIN STOPS OIL STRIKERS.

Police Plan Raid on Homes of Men on Suspicion of Stolen Liquor Is There.

BAYONNE, N. J., Oct. 13.—After a day of intermittent disorder in which a patrolman was shot and two were wounded and prisoners were taken in a raid by special police and firemen, a downpour of rain, followed by a cold wind, tonight cleared the streets of Standard Oil company strikers and kept them in their homes.

Occasional shots were fired tonight, but this was said to have been done by the police to warn the strikers that they were prepared to prevent renewed rioting. Three powerful searchlights on the roofs of the tallest Standard Oil buildings were played constantly over the strike zone.

The police tonight were planning another raid on strikers' homes on suspicion that much stolen liquor was concealed there. All Standard Oil tugs tonight were moored to the piers here prepared for fire duty. The few ships that were at the docks in Bayonne were towed away for safety.

Officials of the Standard Oil company sent word today to their office employees not to report at the Bayonne office for one week and that their salaries would be sent to their homes by check. It was said the company would close its plant for a month or six weeks, as it is four months ahead in orders. Company officials insisted tonight that strikebreakers would not be employed.

OFFICER INSULTED WIFE, HE ASSERTS

Resident of Osage County Makes Charge Against Townsend.

THREATENED TO KILL

Fred Ritzel Says He Will Shoot Policemen If They Return.

THAT Assistant Chief of Police Townsend insulted his wife and two other ladies in their home in Osage county Wednesday night was the charge made yesterday by Fred Ritzel, a resident of Tulsa for seven years.

Here is the story told by Ritzel: "I own my own home in Lombard addition, which is outside of Tulsa county. Wednesday night my wife and her sister and Mrs. John Kelsey, a friend, were in the front room. Mr. Kelsey and myself had gone to the rear of the house. Suddenly I heard my wife calling for me to come into the house at once. Myself and Kelsey ran into the front room. I saw two men standing there. One of them, the spokesman of the pair, told me he was Assistant Chief of Police Townsend and he and the other officer were looking for a man named Kennedy who lived two blocks away and for whom they had a warrant."

Mistaken Identity.

"Then my wife interrupted to tell me that the officers had insulted her. She said that they came to the door to inquire as to the location of the Kennedy home and before she could stop them they had pushed their way across the threshold and into the room. Townsend, she said, looked around and smiled knowingly. Then he said: 'Pretty face, place you girls are running out here. Then he pointed to the door of my bedroom and looked in. All he saw was our baby asleep in its crib. It was then that the women folks, who were badly frightened, called for me. As I have been done in this city is declared by the labor interests to be a blow at the freedom of speech and the ordinance will be contested on this ground."

SINCLAIR EMPLOYEES ORGANIZE

Will Play All Corners on Basketball Floor During Coming Winter.

The Sinclair Oil employees organized themselves into a basketball club last night at the Y. M. C. A. gymnasium. They intend to play the Cosden team and any others who desire. The team will practice for practice three times per week. Those on the floor last night were Watson, Rowley, Fletcher, Ruckey, Meelching, Millard, Reno, Richbaugh, Lockard. The coach of the team will be Potts.

WHERE VESSELS WERE SUNK

Arguments are Now Completed in McMan-Rogers Case.

Arguments of attorneys were completed yesterday in the suit of Vernon B. Harris against Harry H. Rogers and the McMan Oil company which has occupied the superior court for the last two weeks. Valuable oil property is involved and the case is one of the most vigorously contested cases in the history of the court. Judge Breckinridge of the superior court has indicated that he will not deliver a decision in this case for several days.

Noted Man Dies.
PHILADELPHIA, Oct. 13.—Dr. Matthew Woods, one of the best known specialists on epilepsy in the world and a publicist, art collector and traveler, died today following an operation. He was born in Ireland in 1849.

RUMANIAN LINE WILTS BEFORE GERMAN ATTACK

Pressure Is Compelling Invaders to Fall Back in Transylvania.

ITALIANS TAKE 400 PRISONERS

Anglo-French Are Repulsed in Attempting to Break Somme Lines.

STEADILY the pressure of the Austro-German forces is compelling the Rumanian troops who invaded Transylvania less than eight weeks ago to fall back upon or toward their own frontier.

In eastern Transylvania, north of Kronstadt, Berlin reports additional territory free of Rumanians. South-east of Kronstadt the Austro-Germans have also been successful against the invaders. The Rumanians however are offering stubborn resistance. Bucharest reports the repulse by them of attacks on the frontier of southern Transylvania.

Violent infantry fighting continues on the Carso front in the Austro-Italian theater with further successes for the Italians. Near Gorizia and south of this region they have repulsed Austrian counter-attacks, inflicting heavy casualties and east of Dobrova have approached the second Austrian line, taking four hundred prisoners.

Vienna admits the loss of Novadla, but announces that the Austrians put down Italian attacks at other points on the Carso plateau and took 2,700 prisoners. In the Pausio region of the Trentino sector additional gains in ground are claimed by the Italians.

Entente Repulsed.

The French and British have been repulsed in a new attempt to break through the German lines between the Aisne and the Somme in France. The British attacked in the district around Gueducourt and the French near Salby, but neither was able to pierce the German defense although London claims a slight advance near Gueducourt. South of the Somme stubborn fighting is still in progress at Genermont and Abaincourt.

In Macedonia the entente offensive apparently has come to a halt. British advance guards have been active east of the Struma but on the remainder of the front there has been little activity. A belated report from Sofia records the repulse of six Serbian attacks at Skochivir in the Cerna river.

Likewise the operations in Volhynia and Galicia have apparently lessened greatly in violence for neither Petrograd nor Berlin mentions any fighting in these zones. North of the Pinsk marshes in Russia, however, the Germans have attacked Russian trenches on the west bank of the Shara river. Petrograd says the attack was repulsed with heavy casualties.

SHOW EMPLOYES TO TEST RULING

Commissioners Have Prohibited Picketing in Front of "Unfair" Theaters.

Special to The World.
OKLAHOMA CITY, Oct. 13.—Attorneys representing striking theater employees and the interests of organized labor generally will test in the state courts the constitutionality of an ordinance just passed by the city commissioners prohibiting picketing in front of theaters declared to be unfair to organized labor by the strikers.

Picketing has been done by the strikers for the past several weeks. To prohibit picketing such as has been done in this city is declared by the labor interests to be a blow at the freedom of speech and the ordinance will be contested on this ground.

DEALS WITH CONTRACT.

The stumbling blocks upon which Oklahoma operators and miners finally disagreed deal with the employment and discharge of workmen and with the collection of fines for violations of contract. In effect, upon the question of the enforcement of the Kansas City contract as sections four and six of the old contract were altered by the interstate agreement.

THIRTY CONVICTS WILL WORK ROADS

Will Arrive Here Sunday and Will Begin Operations Immediately, Is the Report.

Only thirty convicts will be sent from the state penitentiary at McAlester for work on Tulsa county roads. Cyrus Avery, chairman of the county commissioners, was notified yesterday that would be the number of prisoners sent to this county at first.

The commissioners applied for fifty convicts, but that number was cut down by the state board of affairs. It had been planned to work 25 convicts on the roads and employ the other 25 on the rock crusher three miles west of the city which was recently leased by the commission.

With the allotment cut down ten of the convicts will be used in road work and twenty at the crusher. Additional prisoners will probably be brought to this county later.

The convicts are expected to reach this city some time Sunday. They carry their own commissary equipment and will live in a camp near the rock crusher.

"TROUBLES OF TURNER" TO RUN ANOTHER RIEL

T. Alden Turner, who has flickered considerably in the past few weeks, must face a higher court on the charge of obtaining positions with moving picture companies.

Friday morning he was bound over to the superior court by Justice Daniel and his bond fixed at \$2,000. He was unable to furnish bail and was committed to the county jail, where he has been since first arrested.

All but one of the girls, who are known to have been victimized by Turner's scheme, declined to prosecute. Miss Nellie Lammear, who paid Turner \$5, was not frightened by the fear of publicity accompanying the trial and assisted the prosecution in the case. It was largely upon her testimony that the state based its case.

MINERS IN STATE MAY GO ON STRIKE

Action Will Be Taken October 25 at Special Meeting at McAlester.

COMMITTEES SPLIT

Body From Two Factions Break Off Negotiations After Disagreement.

Special to The World.
McALESTER, Oct. 13.—Because of their inability to reach an agreement upon disputed points in sections four and six of the proposed biennial working contract, representatives of the Oklahoma Coal Operators association and the United Mine Workers of America, district 21, this afternoon broke off negotiations permanently and the general conference adjourned sine die.

The question of whether or not the coal miners of Oklahoma shall go on a strike will be submitted to a special convention to be held in McAlester October 25. President O. H. Wilkins of the district organization announced following adjournment of the conference. Until delegates from the local affected decide on the question of a strike and until the district is given the endorsement of the international organization upon its action, coal mines will continue in operation, it is announced.

The case will be presented to the international by William Diamond, stationer for the Mine Workers, who, as the personal representative of President John P. White, attended the final conferences with the operators. President Wilkins issued a call tonight for the special convention, sending notice to all locals affected by the dispute. It is estimated that between nine and ten thousand miners are affected, approximately 98 per cent of the coal companies in Oklahoma now being affiliated with the Oklahoma Coal Operators association.

Broken in Fair Spirit.

"Negotiations were broken off in fair spirit, upon an honest difference of opinion, and no bitter feelings were engendered," President Wilkins said, discussing the agreement. "We are leaving the question of a strike up to the delegates, who will attend the special convention, although we are advising a strike. In the meantime we are advising miners to continue work until the convention decides and we get endorsement of the international organization."

The operators have agreed to changes in section 1, which the miners demanded, and we really agreed to it in view of what they asked," President J. J. Jordan of the operators association said. "We feel that the miners should have been willing to leave the sections governing the employment and discharge of men as they were in the old contract. They have granted it in Tulsa in this same district, and they have granted it in nearly every other state, with the exception of those affected by the south-western interstate agreement. We still feel that the men themselves will be willing to continue work under those conditions."

Deals With Contract.

The stumbling blocks upon which Oklahoma operators and miners finally disagreed deal with the employment and discharge of workmen and with the collection of fines for violations of contract. In effect, upon the question of the enforcement of the Kansas City contract as sections four and six of the old contract were altered by the interstate agreement.

21 TULSANS TAKE FREE MASON VOWS

Degrees Were Conferred on Local Aggregation at Consistory at Guthrie.

Degrees were conferred on 21 Tulsa members of the Scottish Rite order of Free Masonry at the fall consistory in the valley of Guthrie held during the last three days.

A special card was taken by the members of the consistory from Tulsa which returned yesterday morning.

Those to whom degrees were given from Tulsa are Fred P. Bates, Harry B. Granlee, William V. Hamer, Oren H. McCarty, Yeager O. Mitchell, Charles C. Reinsma, Ned C. Rigbee, Francis B. Jordan, Arthur D. Deans, George C. Cornwell, William P. Tucker, Edward E. Short, Vachel W. Bonnell, Obed C. Cloninger, Courtney Combs, William H. Deasy, Dudley W. Dickson, Frank O. Shide, Arthur D. Sloan, Henry A. Terrell, John E. Van Sant.

TULSA PLEDGES HER SHARE FOR BETTER ROADS

Road Enthusiasts Headed by "Coin" Harvey Formulate Plans.

WILL GIVE \$5,000 FOR TRAIL LINK

Tulsa Will Be One of Points Transversed by State Ribbon.

TULSA will give \$5,000 as her share the expenses of constructing the Oklahoma line of the Ozark trail.

Tulsa will secure the next annual convention of the Ozark Trails association, bringing four thousand delegates to the city.

Tulsa county farmers will be stimulated in their efforts to raise better crops by prizes of a fund of \$1,000 given by Tulsa institutions.

Tulsa will join in number of crossroads that will join with the Ozark trail, which will extend from St. Louis to Santa Fe, each to be hard surfaced.

These facts became known last night when at a meeting in the Chamber of Commerce room speakers declared that Tulsa was now setting the pace in every movement looking to the development of this section of the state and that every worthy matter would be given the great consideration that was due it, not only by the class involved, but by the citizenship as a whole.

Hear "Coin" Harvey.

The meeting primarily had been called to give audience to the message brought by Col. W. H. (Coin) Harvey, father of the Ozark Trails association, but during the evening a number of addresses, each of great interest, were delivered by speakers called upon by Chairman Frank Greer.

It was on the subject of the Ozark trail that Mr. Harvey brought out the fact that Oklahoma City had agreed to and now had in the bank a fund of \$10,000 which was to be used as that city's part in constructing the Oklahoma link of the trail.

It was explained by the speaker that of the fund which Tulsa will raise, approximately \$5,000 would be used to pay the cost of a specialist whose duty it would be to take over the active work of the Ozark Trails association in this city and to take up the work in this section and work in conjunction with all interests which are looking toward the construction of better roads in Tulsa county.

It developed at the meeting that Tulsa, in any event, will be one of the main points traversed by the Ozark trail, but as Colonel Harvey explained, "Tulsa, whose duty it will not be willing to rest with alone. She will seek to gain with her to add to that store."

Appoint a Committee.

In the appointment of a committee, composed of Cyrus Avery, Glenn Brantley, M. H. Berry, E. E. Hopkins and O. H. Leonard, whose duty it will be to raise the fund of \$5,000, the meeting adjourned.

THIRTY CONVICTS WILL WORK ROADS

Will Arrive Here Sunday and Will Begin Operations Immediately, Is the Report.

Only thirty convicts will be sent from the state penitentiary at McAlester for work on Tulsa county roads. Cyrus Avery, chairman of the county commissioners, was notified yesterday that would be the number of prisoners sent to this county at first.

The commissioners applied for fifty convicts, but that number was cut down by the state board of affairs. It had been planned to work 25 convicts on the roads and employ the other 25 on the rock crusher three miles west of the city which was recently leased by the commission.

With the allotment cut down ten of the convicts will be used in road work and twenty at the crusher. Additional prisoners will probably be brought to this county later.

The convicts are expected to reach this city some time Sunday. They carry their own commissary equipment and will live in a camp near the rock crusher.
